Eloping Couple Nearing Police Toils Arrest is Anticipated on Mauna Kea

Upper picture shows Hiram McKinley Heatherbloom and his affinity, Genevieve Winifred de Vere, snatched in a characteristic pose on board the vessel which brought them to this port; below is a photograph, specially posed, of Mrs. Heatherbloom, the injured wife, who swears she will have vengeance on the actress.

Potato King and Actress Affinity Traced by Local Sleuths

FACTS OF THE CASE.
Hiram McKinley Heatherbloom, the San Joaquin Valley potato king, elopes with Genevieve Winifred de Vere, leading lady of All-American Stock Company.
Wife hears of elopement and traces couple to Honolulu.
They book on Ad Club excursion.
Police hear of plans and spread net.
Couple double on tracks and escape.
Police pick up trail and will make arrest as they board Mauna Kea this afternoon about a quarter to three.

HAWAII SUPERVISORS PLAN TO IMPROVE COCONUT ISLAND

[Special Star-Bulletin Correspondence] HILLO, August 15.—After many fruitless efforts to move the Supervisors to take action towards making Coconut Island worthy of being termed the "Waikiki" of Hilo, on the part of the public, seconded by the press, it has fallen to the lot of Dan McCristen to convince the Supervisors of the error of their ways, but it is now almost assured that within the space of a few months Hilo will be the proud possessor of a bathing resort that will stand to its credit. McCristen interested the Supervisors to the extent of requesting them to visit the island with him, where he pointed out the manifold disadvantages which existed by reason of the absence of sufficient bathing houses and shower baths. The result is that a resolution empowering Chairman Ewald, who ranched himself behind the supporters of the movement, and William Vannatta to investigate and report to the Board, as to the advisability of constructing suitable dressing rooms, and laying water pipes to the island to provide the necessary shower baths. It is considered likely that both the gentlemen mentioned will report favorably on the project, particularly as it is reported that there is enough pipe at the disposal of the county at Kau to make the necessary connections with the main on the mainland adjacent to the island. The proposal is to erect a dressing room, containing accommodation for eighty people on the open space to the back of and close to the present diving platform, and, in close proximity, to construct two shower baths, one for the use of ladies, and one for gentlemen.

Recent observation has shown that the point of land behind the springboard and on the makai side of the island is gradually being eroded by the action of the waves, which strike

upon it with far harder force than heretofore, due, it is suggested, to the fact that the currents have been changed by the construction of the breakwater. To prevent the washing away of the point in question, which would utterly spoil the present bathing beach, is a matter which will also be taken up, for the Supervisors seem now to realize the importance of Coconut Island to the residents of the town.

No doubt this changed view has been occasioned by reason of the fact that the attendance last Sunday, when a local band was playing there, was very large, and included many of the prominent business men of Hilo, together with their wives and families.

Visitors from Honolulu have on many occasions in the past expressed themselves as delighted with Coconut Island as a bathing resort, particularly in view of the fact that coral, which mars the Waikiki beach, is conspicuous by its absence at the local resort. The greatest criticism against Coconut Island has been its lack of proper facilities for dressing and showering, and the absence of showers, but these, it is now believed, will be provided within a short space of time.

Architect Davis of the firm of Ripley & Davis, is preparing plans for the Hilo Yacht Club building, which is to be erected on the Coconut island side of the Hilo wharf. There is much enthusiasm among the members of the newly formed club and all are anxious to get into their club quarters.

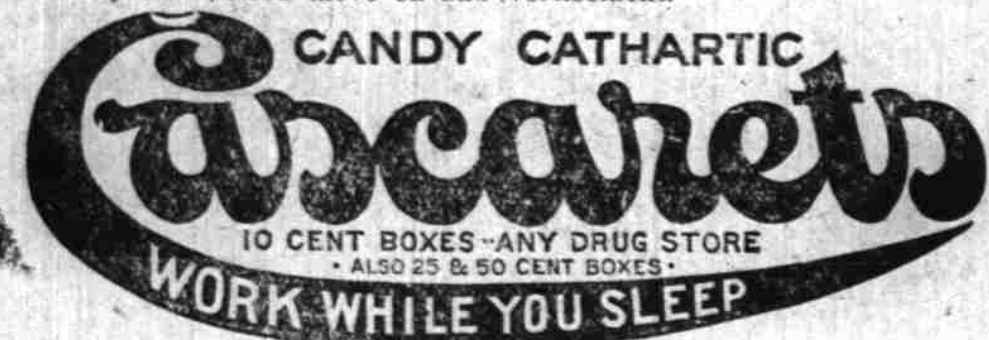

Holmes, Stanley and Olson, attorneys for the Halawa plantation, Ltd., on Tuesday filed a joinder in demurrer to the demurrer entered by the county in the damage case which the plantation has instituted.

FEEL SHAKY, BILIOUS, HEADACHY, OR CONSTIPATED? TAKE CASCARETS

Sick headaches! Always trace them to lazy liver, delayed, fermenting food in the bowels of a sick stomach. Poisonous, constipated matter, gases and bile generated in the bowels, instead of being carried out of the system, is reabsorbed into the blood. When this poison reaches the delicate brain tissue it causes congestion and that dull, sickening headache.

Cascarets remove the cause by stimulating the liver, making the bile and constipation poison move on and

out of the bowels. The effect is almost instantaneous. Ladies whose sensitive organisms are especially prone to sick headaches, need not suffer, for they can be quickly cured by Cascarets. One taken tonight will straighten you out by morning—a 10-cent box will keep your head clear, stomach sweet, liver and bowels regular and make you feel bright and cheerful for months. Children need Cascarets, too—they love them because they taste good and never gripe or sicken—advertisement.

MATTOON MAY BE SHORT ABOUT \$2,000

[Special Star-Bulletin Correspondence] HILLO, August 15.—David Mattoon, assistant bookkeeper for the Laupahoehoe Sugar Company, is under arrest on a charge of forgery, Auditor Mist of Davies and Company, having discovered that someone has been systematically padding the payroll of the plantation and abstracting the money. The amount specified in the complaint is \$100, but the amount taken during the last three months, over which period the peculations have extended, is known to amount to \$2000. Mattoon only recently gained unsavory fame from an attempt, made through the good graces of John Kealoha, to collect pay for twenty days work as North Hilo road overseer, which it was shown in the local district court he had never performed. The system used in padding the payroll is said to be very similar to the one officials have been using to rob the county. As a coincidence, it is pointed out that the peculations charged against Mattoon started only a short time after Kealoha had "taken charge" of the North Hilo district.

The Laupahoehoe assistant bookkeeper is accused of placing dummy names on the plantation payroll, and of raising the amounts due to some of the laborers. It was a part of his office duty to fill out the pay envelopes. He had been with the plantation for three years, and was trusted by his employers.

HILLO NOTES

[Special Star-Bulletin Correspondence] HILLO, Aug. 15.—The first of the actions to be brought by John D. Easton as trustee of the bankrupt firm of Desha & Willifong to collect the outstanding accounts due that firm terminated in favor of Easton yesterday, when Deputy Sheriff Martin on an execution issued against the defendant, Kitaro Kohara, collected the entire amount of principal, interest and costs.

Supervisor Sam Kaubane, of Kau, is reported by Judge Wise to have said that he would resign "if things kept going along as they are now." Wise made this statement at the board of trade meeting. Kaubane, when he made the remark, was expressing his disgust because the board had empowered Chairman Ewald to employ special counsel to defend the county in the Halawa damage case.

The money enriched the county to the sum of \$200 this week by the bagging of two blind-pigeons. Early in the week Captain Silva managed to catch a booby-seller at Pepee, who was operating without a license. The men were released on a \$100 cash bond which he forfeited. Captain Solomon landed another at Onomea Wednesday night, who also contributed \$100 to the county.

The Desha-Willifong garage was last Saturday sold to Amelia K. Hip by the creditors of the bankrupt firm. The garage will be opened for business under the name of the Hawaii Garage on Saturday, August 16th, and will be managed by T. S. Forbes.

Edwin Farmer, an inspector of the United States immigration department arrived here yesterday morning in order to examine the applications of two Chinese who want "return certificates" issued to them, so they may make a visit to China. Farmer is accompanied by Chock Hoy, interpreter for the immigration department and C. W. Durker, Jr., a stenographer.

R. S. Chase, who has been in charge of the rock crushing plant for the volcano stables on the Kau road, has resigned. It is stated that he intends to locate in Hilo and go into the contracting business. Pat Fitzgibbon, who for the past two years has been doing road work on Kauai, arrived here yesterday and will take the position formerly held by Chase.

C. E. Wright, chairman of the board of prison inspectors, says that he will write to Governor Frear and advise that a parole be granted Graciano, a Filipino prisoner in the Hilo jail who is suffering from tuberculosis. The sheriff desires to get the man out of the jail as he is a menace to the health of the other prisoners. If paroled the man will be taken to the Puuiale home in Waialeale.

INCREASED WAGES MAY RAISE PRICE FOR FOOTWEAR

[By Latest Mail] LEICESTER, England.—At a conference of the national federation of boot and shoe manufacturers and the national union of boot and shoe operatives held in Leicester, a raising of the minimum wage to 35s a week for all adult employees has been made by the national union.

Among the other demands of the union are a working week of 48 hours for the whole trade without any reduction in wages, the total abolition of overtime, and the prohibition of female labor in certain departments.

The employers' federation insisted, and it was agreed by the workers' representatives that any agreement regarding wages, hours of labor, and conditions of employment should apply to every center in the trade, whether federated or non-federated; that no restriction should be placed overtime in accordance with the local conditions.

Dodge, Dr. and Mrs. Scudder have the ascent of Haleakala this week.

conditions: That the national union should fully recognize the essential principles of immunity from strikes, with security for the continuance of business, and that the employers should maintain their right to preserve discipline in the factories, and that they should be entirely free to manage their businesses in their own way, and to introduce new machinery when they thought advantageous.

It is likely that the conference will result in a satisfactory agreement being reached, since no objection is placed in the way of raising the minimum wage by the manufacturers of Leicester and Northampton. It is likely that the higher wages and the increase in the cost of leather will

ADDITION TO COLONY

(Special Cable to the Japanese Chronicle).

TOKIO, Japan, August 15.—General Fu Hung Min, former governor general of the province of Kwangtung, who is among the many prominent political leaders of Dr. Sun Yat Sen's party who have fled to Japan, came to Tokio today from the west coast. He has not intimated as yet that he will join Dr. Sun Yat Sen at Suma.
